

25 YEAR WARRANTY

FINGERJOINT LOSP H3.1 PRIMED PRODUCTS

June 2018

Producer Statement

Taranakipine™ produces a range of fingerjoint H3.1 primed products in compliance with the following NZ standards that are 'fit for purpose' to be used in buildings that fall within the scope of NZS 3604 Timber Framed Buildings and Acceptable Solutions E2/AS1. This range of products includes various profile weatherboards, fascias, boxed corners and square dressed boards.

AS/NZS 1491:1996 – Fingerjoint timber standard
NZS 3640:2003 – Treatment standard
NZS 3617:1979 and BRANZ 361 – Profiles of weatherboards

Taranakipine™ warrants these products against rot and fungal attack for **25 years** when installed and maintained as per our instructions which can be viewed on our website
<http://www.taranakipine.co.nz/uploads/Taranakipine%20Weatherboard%20Manual%20July%202014%20interactive%281%29.pdf>

During the manufacture of these products, regular in house monitoring and checks take place, as well as being independently audited against these standards by the Treatright Programme and AsureQuality Engineered Wood Programme.

Regards,
Blair Thomson
